

MEDEO VIRTUAL CARE

Why Medeo?

Not every medical concern needs an office visit. Medeo Virtual Care gives Providers a secure way to engage with patients using protected online messaging, file sharing, and video visits.

Simple to learn
and use

Makes clinic
management
easier

Time is Valuable, to Everyone

Providers across Canada use Medeo to conduct hundreds of online visits a day, saving unnecessary visits to emergency departments and walk-in clinics. Consultations, expedited specialist referrals, injury and pain management, mental health counselling, prescription renewals, and more can all be done through Medeo. And unlike other video conferencing platforms, Medeo is built with bank-grade security standards and military-grade encryption to give you confidence that your patients' information is safe.

Expand Your Reach, Extend Your Care

Medeo Virtual Care supports a whole new level of connectivity with patients and brings more to healthcare delivery.

- ✔ Virtual visits allow you to expand your practice
- ✔ Patients in remote areas have improved access to care
- ✔ Information is protected with fully secure communications
- ✔ You and your patients can both enjoy more flexibility in scheduling
- ✔ Workflow processes are improved and the team saves time

SECURE MESSAGING

- ✔ Use Secure Messaging for prescription renewals, lab results reviews, and quick follow-ups
- ✔ You stay in control by initiating and ending communications with patients
- ✔ Securely share labs and documents with patients and Care Team members

SECURE VIDEO VISITS

- ✔ Be responsive with video appointments for chronic care, injury, pain management, and counseling follow-ups
- ✔ Expand the circle of care to include other Healthcare Providers and family members
- ✔ Reduce treatment barriers due to distance or patient mobility issues
